3D COMPUTER VISUALIZATION & RENDERING SERVICES

Schematic Renderings

Seeing your building as the design develops.

- Basic package included in Base Fee when REVIT software is used on project.
- Considered schematic quality to adequately describe the design intent.
- Black and white technical models on projects where REVIT is being utilized representing form, shading and graphical suggestion on materials.
- Non-photorealistic colour models describing not only form, shading and materials but conceptual colour differences related to materials.
- Exterior or Interior perspectives as applicable.
- Reveals impacts of design on sun angles and shadow.
- Used to describe detail more clearly to contractors during construction to resolve complications.
- Exterior or interior as required.
- Images created and provided to client for review and comment. Most image formats are available.

Colour Renderings

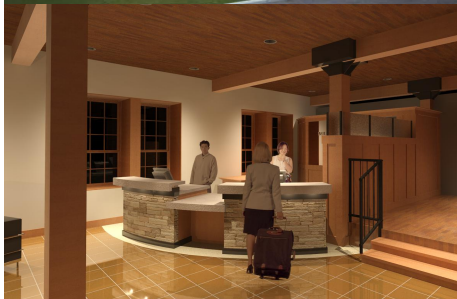

Bringing your facility to life in colour.

- Provides clear understanding of building design with differentiation of colour, materials and shading from sun.
- Endless views are possible giving Client ability to show important aspects of the design.
- Suitable for large format colour printing, website and presentations.
- Images created and provided to client for review, comment and presentation. Most image formats are available.
- Exterior or interior as required.
- Considered Additional Services to Base Fee as requested by Client. Fee to suit client requirements.

Photorealistic Marketing Renderings & Videos

Building before building.

- Intended to describe the design in near reality.
- Comparison of day and evening conditions.
- Used for marketing documentation and to inspire donors into action.
- Form, materials, colours and lighting replicates real life conditions.
- Used as a final reassurance tool of design decisions leading to confident approval and implementation.
- Exterior or interior as required.
- Videos achieve optimum understanding of building design with infinite perspectives. Interior or exterior.
- Images or video files created and provided to client for review and comment. Most image and video formats available.
- Considered Additional Services to Base Fee as requested by Client. Fee to suit client requirements.
